"Insurance" means the insurance covering the loss in Market Value of the Property (and all other costs and expenses which have been agreed) directly attributable to any changes in the Information revealed in a subsequent TerraSearch Coal Report which was not revealed in the TerraSearch Coal Report ("Report") attached to this Insurance.

"Market Value" means the value determined by an appointed RICS surveyor, such loss to be calculated at the date of the subsequent Report.

"Information" means the information in the Report compiled from:

1. The Coal Authority’s records in relation to past, present and planned underground and opencast coal-mining activity, shafts and adits (vertical and horizontal entries to mines), coal-mining geology, coal-mining related hazards, coal-mining subsidence and mine gas, as recorded in the CON29M (2018) report; and

2. The records of the Cheshire Brine Subsidence Compensation Board (CBSCB) in relation to Cheshire Brine, as specifically recorded in the CON29M (2006) report or reported in Questions 3 and 4 of the CBSCB Cheshire Salt Search.

Subject to the terms of the Insurance (full details available on the Terrafirmasearch website), each Report issued for a single residential dwelling includes Insurance up to maximum of £50,000, effective from the date of issue of the Report ("Effective Date") until the property is sold or, in respect of a mortgagee, until the debt secured by the mortgage is repaid.

The Insurance applies only to the Purchaser, being:

1. the person who asked for the Report (and the mortgagee) in connection with purchase of the Property.
2. the person who purchased the Property (and the mortgagee) if the person selling the Property has asked for a Report for the benefit of the Purchaser as part of a seller’s pack or if the Property has been purchased by way of auction.
3. the owner of the Property (and the mortgagee) if the Property is being re-mortgaged or the owner of the Property who has chosen to obtain a Report.
4. the Purchaser’s estate and beneficiaries, to whom the benefit of the Policy will pass in the event of the Purchaser’s death during the Period of Insurance.

2. if the Property is not a single private home in the United Kingdom which is used only for residential purposes.
3. in relation to loss of a transaction for the sale or for the purchase of the Property nor for any costs incurred in relation to the loss of such transaction.
4. in respect of structural or other physical damage caused to the Property by subsidence, flooding or otherwise.
5. as a result of any change in Information in response to - future underground coal mining and- future opencast coal mining.
6. if the Information in any subsequent Report after the Effective Date also appears on the attached Report.
7. to any problem revealed by the first Report after the Effective Date if the Purchaser or their legal representative knew about the problem on or before the Effective Date.
8. to any change to the CON29M (2018) Search form and/or the Report made after the Effective Date which affects the Insurer’s responsibility under this Policy, if the Insurer would not have been responsible for the loss before such change.
9. to any change in the interpretation of Information upon which the Report was produced, provided such Information remains unchanged.

The Insurer will not be responsible for any loss for which The Coal Authority or the Cheshire Brine Subsidence Compensation Board may be required to pay by law.

Terrafirma Report terms and conditions

Report limitations
This TerraSearch® Assure Certificate has been carried out with reference to official British Geological Survey Data, Terrafirma’s bespoke GIS and an extensive collection of abandoned mine plans, maps, records and archives in our possession. From this material, we have endeavoured to provide as accurate a report as possible. This certificate is a ‘remote’ or ‘desktop’ investigation and reviews only information provided by the client and from the databases of publicly available information that have been chosen to enable a desk based environmental assessment of the Site. The Certificate does not include a Site Investigation, nor does Terrafirma make specific information requests of the regulatory authorities for any relevant information they may hold. This certificate is concerned solely with the Site searched and should not be used in connection with adjacent properties as we may have only referenced relevant known ground features that could potentially have a direct influence upon the target Site. Other risks which may be present in the general area may have been omitted for clarity. This certificate considers the ongoing use of the Site for conveyancing only and does not include an assessment of coastal erosion, mineral planning, radon or Oil & Gas (Inc. Fracking) nor does it consider any assessment of ground stability concerning any future development of the Site. Should an assessment of these risks be required, it is recommended that a Terrafirma Ground Report is acquired.

This report is confidential to the client, the client’s legal advisor and the client’s Mortgage lender, as defined in the TerraSearch® terms & conditions, and as such may be used by them for conveyancing or related purposes. We have no liability toward any person or organisation not party to commissioning this report. This report or any part of it is not permitted to be reproduced, copied, altered or in any other way distributed by any other person or organisation.

This report may contain public sector information licensed under the Open Government Licence v3.0.
